

Hand Sanitizer Dispensers Inside Elevator Cars

Date: 1-7-2022

In accordance with the national Safety Code for Elevators and Escalators, ASME A17.1 – 2016 / CSA B44-16 adopted by Wisconsin Administrative Code Ch. SPS 318, hand sanitizer dispensers are not to be installed inside elevator cars.

A17.1, 2.14.1.9.1 limits equipment inside elevator cars to the following:

- 1) . Support Handrails.
- 2) . Fastening devices for padded protective linings.
- 3) . Lift hooks, conveyor tracks and support beams for freight elevators.
- 4) . Picture frames, graphic display boards, plaques and similar visual displays meeting requirements for rounded edges and limited projection from the wall surface.
- 5) . Heating, ventilating and air conditioning equipment.

Hand sanitizer dispensers for use by elevator passengers may be installed in elevator lobbies instead of inside cars.
